New TV 1.0.2 — Note for tester

This is the first submission of New TV.

- **No test account is needed.** On the first (activation) screen press **OK** on **"Watch demo"** to open the full app with sample channels, program guide, catch-up and movies.
- Real subscribers activate the TV by sending the device code shown on screen to New TV support; activation happens on our server, there is no login/password in the app.
- Interface language follows the TV language; it can be changed in Settings > Language.
- BACK on the main screen asks for confirmation; press BACK twice to exit.
- Magic Remote: pointer clicks and wheel scrolling are supported.
